Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Freire Charter School Wilmington, Inc. (a component unit of the State of Delaware) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Freire Charter School Wilmington, Inc.'s basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Freire Charter School Wilmington, Inc.'s management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Freire Charter School Wilmington, Inc. as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 6 through 11, budgetary comparison information on pages 37 and 38, schedule of the school's proportionate share of net OPEB liability on page 39, schedule of school contributions on page 40, schedule of the school's proportionate share of net pension liability on page 41, and schedule of school contributions on page 42 to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Freire Charter School Wilmington, Inc.'s basic financial statements. The schedule of expenditures of federal awards is present for purposes of additional analysis as required by title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 24, 2019, on our consideration of the Freire Charter School Wilmington, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Freire Charter School Wilmington, Inc.'s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2019

The Freire Charter School Wilmington, Inc. (the "School") is pleased to present to readers of the financial statements of the School this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2019, its 4th year of operation as contained in the report on its financial statements prepared by the School's outside auditors.

FINANCIAL HIGHLIGHTS

Governmental Activities

- The net position of the School at the close of the fiscal year is \$(4,268,494). This is net of the School's share of the State of Delaware's Pension and Other Postemployment Benefits liabilities of \$8,429,415. Without the School's share of these liabilities, the School's net position is \$1,055,755.

Fund Level

As of the close of the current fiscal year, the School's Governmental Fund (the General Fund) reported an ending fund balance of \$507,283.

OVERVIEW OF THE FINANCIAL STATEMENTS

This overview is an introduction to the School's basic financial statements. The School's financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. The audit report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The Statement of Net Position (page 12) presents information on all of the School's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as useful indicators as to whether the financial position of the School is improving or deteriorating.

The Statement of Activities (page 13) presents information showing how the School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund Financial Statements

The fund financial statements begin on page 14 and provide detailed information about the General Fund. A "fund" is a fiscal and accounting entity with a self-balancing set of accounts that the School uses to keep track of specific sources of funding and spending for a particular purpose. The General Fund falls into the governmental category.

FREIRE CHARTER SCHOOL WILMINGTON, INC.
(A Component Unit of the State of Delaware)
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2019

- **Governmental Funds** - The School's basic services are reported in a Governmental Fund, which focuses on how cash flows into and out of the fund and the balances left at year-end that are available for future spending. The Governmental Fund financial statements provide a detailed, short-term view of the School's operations and the services it provides. Governmental Fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the long-term focus of the government-wide statements, reconciliations are provided to explain the differences between the Governmental Fund Balance Sheet and the Statement of Net Position (page 15) and between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities (page 17). These funds are reported using the modified accrual basis of accounting, which primarily measures cash and other financial assets available to satisfy current liabilities.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 18 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the School's actual revenues and expenses compared to its budget, the Schedule of the School's proportionate share of the net OPEB liability, as well as the Schedule of the School's proportionate share of the net pension liability. The required supplementary information can be found on pages 37 through 42.

Single Audit Requirements

The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance").

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

Net Position

One of the most important questions asked about School finances is, "Is the School better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the School as a whole and about its activities to help answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting method used by private sector corporations. All of the current year revenue and expenses are taken into consideration regardless of when cash is received or paid.

The change in net position provides the reader with a tool to assist in determining whether the School's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as student enrollment stability and facility conditions to arrive at a conclusion regarding the overall health of the School.

GENERAL FUND BUDGETARY HIGHLIGHTS

The final budget contained \$7,249,002 of revenues and \$7,234,841 of expenditures. The actual results were revenues of \$53,094 under budget and expenditures of \$165,117 under budget.

- Total revenues were under budget by \$53,094. Fundraising/other was specifically under budget by \$82,067. The School's budgeted included the use of \$115,800 of operating reserve funds to cover the cost of a new HVAC system for the School, which was charged to capital outlays. The use of reserve funds does not get recorded as revenue in the actual financial statements of the School.
- Salaries and employment costs were under budget by \$73,898 and \$53,139, respectively. The School added two administrative positions to the final budget that was passed in December 2018. These positions were not filled until the start of the 2019-20 school year.
- Capital outlays were over budget by \$60,043. As noted above, the School had an overall budget surplus for the fiscal year and elected to use a portion of its surplus to purchase \$50,000 worth of instructional computer equipment to create a new "innovation lab" for students.

FREIRE CHARTER SCHOOL WILMINGTON, INC.
(A Component Unit of the State of Delaware)
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2019

- Debt service was over budget by \$109,833. As noted above, the School had an overall budget surplus for the fiscal year and elected to make an additional \$110,000 of its surplus to make a discretionary principal payment to fully repay one of the School's construction loans from building out the School's 2nd and 4th floors.
- The School's contingency reserve was under budget by \$118,155. This line item is for budgeting purposes only (actual expenses are not recorded here). Any unbudgeted expenses are recorded to the appropriate category, not contingency reserve.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2019, the School had invested \$1,626,782, net of accumulated depreciation, in its capital assets.

	<u>Governmental Activities</u>

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Charter School

The Freire Charter School Wilmington, Inc. (the "School") was formed in 2013 as a nonprofit corporation exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The School's first year of operations began July 1, 2015. The School was established to provide college-preparatory learning experience with a focus on individual freedom, critical thinking, and problem solving in an environment that emphasizes the values of community, teamwork, and nonviolence.

The Charter School Law grants authority for independent public schools to be created for the purpose of increasing choices for parents of public school students and increasing academic performance. A charter school is an independent public school governed by an independent Board of Directors. In Delaware, charter schools have the same basic standing as a school district with some exceptions--most notably, they may not levy taxes and do not receive state or local school district funding for capital facilities. To encourage innovation, charter schools operate free from some state laws and regulations.

The basic financial statements of the School have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the School are described below.

Reporting Entity

The School is the primary government and is considered a component unit of the State of Delaware. A component unit, although a legally separate entity, is, in substance, part of the State of Delaware's operations. The GASB established the criteria for determining the activities, organizations and functions of government to be included in the financial statements of the reporting entity. The criteria used in determining whether such organizations should be included in the School's financial reporting entity are financial interdependence, selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters, scope of public service and special financing relationships. Based upon the above criteria, the School has no component units for which it is considered to be financially accountable.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the School. For the most part, the effect of interfund activity has been removed from these statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide financial statements report net position in three separate components. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of borrowing attributable to acquiring, constructing, or improving those assets. Net position is reported as restricted for specific programs when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Those restrictions affect net position arising from special revenue and capital funds. Unrestricted net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted for specific programs."

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Separate financial statements are provided for the Governmental Fund.

Measurement Focus, Basis of Accounting and Financial Statement Preparation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Charges to school districts are recognized as revenues in the year for which they are billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include: (1) charges to students for special fees, materials, supplies, or services provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include charges to school districts.

The Governmental Fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Charges to the School and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the School receives cash.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School reports the General Fund (a Governmental Fund type), which is the School's operating fund. It accounts for all financial resources of the School, except those required to be accounted for in another fund.

Cash and Cash Equivalents

Cash and cash equivalents of the School are controlled by the State Treasurer's Office in Dover, Delaware, and include cash on hand and demand deposits.

Accounts and Pledges Receivable

Accounts receivable are stated at their net realizable values. Accounts receivable do not bear interest. There was no allowance for uncollectable receivables at June 30, 2019.

Capital Assets

The School defines capital assets as assets with an initial individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend lives of the assets are expensed.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest cost incurred during construction is capitalized.

Capital assets of the School are depreciated using the straight-line method over the estimated useful lives of the related assets. The School generally uses the following estimated useful lives:

	<u>Years</u>
Leasehold improvements	20
Furniture and equipment	10
Computers	5

Compensated Absences

Vacation and sick pay plus related payroll taxes are accrued when incurred in the government-wide financial statements. Availability for these amounts is reported in the Governmental Fund only when the liability matures, for example as a result of employee resignations and retirement.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Vacation - Vacation cannot be accumulated from year to year. Any unused vacation days as of June 30 of each year lapse and are unpaid.

Sick Leave - Sick leave allowances cannot be accumulated from year to year.

There were no compensated absences as of June 30, 2019.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School has only two items that qualify for reporting in this category. They are the deferred outflow related to OPEB activity and deferred outflow related to pension activity, both of which are reported in the government-wide statement of net position. The deferred outflow related to OPEB activity is the result of changes in the School's proportionate share of the total plan from year to year and actual contributions subsequent to the measurement date. The deferred outflow related to pension activity is the result of changes in the School's proportionate share of the total plan from year to year, the changes in assumptions, the difference between expected and actual experience, and actual contributions subsequent to the measurement date.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School has only two items that qualify for reporting in this category. They are deferred inflows related to OPEB activity and deferred inflows related to pension activity, both of which are reported in the government-wide statement of net position. The deferred inflow related to OPEB activity is the result of changes in assumptions and differences between projected and actual investment earnings. The deferred inflow related to pension activity is the result of differences between expected and actual experience and the net difference between projected and actual investment earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Fund Balance

In the fund financial statements, the Governmental Fund present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the School is bound to honor constraints on the specific purposes for which amounts in the Governmental Fund can be spent.

FREIRE CHARTER SCHOOL WILMINGTON, INC.
(A Component Unit of the State of Delaware)
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The classifications used in the Governmental Fund financial statements are as follows:

- ***Nonspendable*** - This classification includes amounts that cannot be spent because they are either (1) not in spendable form or (2) are legally or contractually required to be maintained intact. The School did not have any nonspendable fund balance as of June 30, 2019.
- ***Restricted*** - This classification includes amounts for which constraints have been placed on the use of the resources either (1) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation. The School did not have any restricted fund balance as of June 30, 2019.
- ***Committed*** - This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. The Board of Directors is the highest level of decision-making authority for the School. Commitments cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action (formal vote of the Board of Directors) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The School did not have any committed resources as of June 30, 2019.
- ***Assigned*** - This classification includes amounts that are constrained by the School's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to the School management through the budgetary process. The School did not have any assigned fund balance as of June 30, 2019.
- ***Unassigned*** - This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other Governmental Fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Tax

The School is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been reflected in the School's financial statements. In addition, the School qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND CASH EQUIVALENTS

At June 30, 2019, the School had cash and cash equivalents of \$953,421. Substantially all cash and cash equivalent are part of an investment pool controlled by the personnel of the State Treasurer's Office in Dover, Delaware, and any investment decisions are made by the State Treasurer's Office. These funds are considered to be highly liquid and available for immediate use and, thus, are recorded as cash equivalents in the financial statements.

The funds held by the State of Delaware investment pool, an internal investment pool, are specifically identified for the School, but the credit risk cannot be categorized for these funds. Credit risk for such investments depends on the financial stability of the State of Delaware. The State reports that its investment securities are stated at quoted market prices, except that investment securities with a remaining maturity at the time of purchase of one year or less are stated at cost or amortized cost. Because the State of Delaware investment pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is deemed to be a cash equivalent.

NOTE D - LINE OF CREDIT

The School has a line of credit of \$500,000 with a bank which expired on May 31, 2019. The line of credit is in the process of being renewed through May 31, 2020. Interest is payable annually on April 30, 2016 and on each subsequent April 30 at 5%, along with any unpaid principal. The line of credit was not utilized during the year ended June 30, 2019 and no balance was outstanding at June 30, 2019.

General Information about the OPEB Plan

Plan Description

The State of Delaware's Other Postemployment Benefit (OPEB) Fund Trust (the Plan) is a cost-sharing multiple-employer defined benefit plan established in the Delaware Code. The Plan is administered by the Delaware Public Employees' Retirement System (DPERS). The State of Delaware (the State) is responsible for the policy and management of the OPEB benefits provided to retirees. The Plan's assets may be used only for the payment of benefits to the members of the Plan in accordance with the terms of the Plan. Additional financial and actuarial information with respect to the Plan may be found in the State of Delaware Other Postemployment Benefits (OPEB) Fund Trust Financial Statements available online at <https://open.omb.delaware.gov/Financials.shtml>.

Benefits Provided

The Plan provides medical coverage to pensioners and their eligible dependents covered under the following pension plans: State Employees', New State Police, Judiciary and Closed State Police Pension Plans. This includes the employees of the State as well as employees of the State's component units and affiliated agencies which are part of the State Employees' Pension Plan. Those employers include Delaware Charter Schools. The participant's cost of Plan benefits is variable based on years of service within those pension plan categories. Pensioners who retire after July 1, 2012 and who become eligible for Medicare will pay an additional 5% of the Medicare Supplement offered by the State. Surviving spouses are eligible for coverage after a retiree's death.

Funding Policy

Participating employers fund the Plan for current retirees on a pay-as-you-go basis along with funding for future benefits at a rate that is approved in the annual budget, but not actuarially determined. By State Statute Chapter 52, Title 29 of the Delaware Code, contribution requirements of Plan members and the government are established and may not be amended by the State Legislature. Funds are recorded in the Plan for the payment of retiree healthcare claims, administrative and investment expenses. Administrative costs are financed through investment earnings. State appropriations, other employer contributions, and retiree contributions for healthcare are recorded in the Plan. The funds available are invested under the management of the DPERS Board of Pension Trustees, which acts as the Board of Trustees for the Plan and is responsible for the financial management of the Plan.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the School reported a liability of \$7,258,039 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2017 with update procedures used to roll forward the total OPEB liability to June 30, 2018. The School's proportion of the net OPEB liability was based on a projection of the School's long-term share of contributions of all participating employers, actuarially determined. At June 30, 2018, the School's proportion was 0.0884%.

For the year ended June 30, 2019, the School recognized OPEB expense of \$1,076,739. At June 30, 2019, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

\$264,622 reported as deferred outflows of resources related to OPEB resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2020	\$ 516,071
2021	516,071
2022	516,071
2023	520,628
2024	-
	<u>\$ 2,068,841</u>

Actuarial Assumptions

The total OPEB liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of June 30, 2017, with update procedures used to roll forward the total OPEB liability to June 30, 2018. This actuarial valuation used the following actuarial assumptions:

- Discount Rate – 3.87%
- Projected salary increases – 3.25% + Merit
- Healthcare cost trend rates – 6.80%

Mortality rates are based on the sex-distinct employee, healthy annuitant, and disabled annuitant mortality tables derived from the RP-2014 Total Dataset Employee Mortality Table, including adjustment factors. Future mortality improvements are reflected by applying a custom projection scale on a generational basis to adjusted base tables from the base year.

The total OPEB liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, health costs, and employee demographic behavior in future years. The assumptions used were based on the results of an actuarial experience study conducted in 2016. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates the larger the impact on future financial statements.

Investments

Investment Policy - The State Board of Pension Trustees is responsible for the management and investment of funds in the OPEB Trust. The Board authorized its investment committee to select the investment managers of the OPEB Trust following the established investment guidelines for DPERS until a separate investment policy is adopted for the OPEB Trust. The guidelines follow the prudent person standard, which requires fiduciaries to discharge their duties solely in the interests of participants and their beneficiaries with such care, skill, prudence, and diligence as a person acting in like circumstances would exercise in the conduct of an enterprise with similar character and similar aims. The OPEB Trust investment objectives and policies currently include indexed exposure to approximate the DPERS' policy benchmark. The Investment Committee regularly reviews the OPEB investment performance and considers investment vehicles which strike a balance between risk and return while being mindful of the government's time horizon for the OPEB investments. Plan assets are managed on a total return basis.

Rate of Return - For the year ended June 30, 2018, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 6.80%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on the OPEB Trust plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2018 (see the discussion of the OPEB Trust's investment policy) are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equities	36.70%	3.75%
International equities	19.20%	3.75%
Fixed income	38.10%	3.75%

Discount Rate

The discount rate used to measure the total OPEB liability was 3.58 percent at the beginning of the current measurement period and 3.87 percent at the end, based on the Bond Buyer GO 20-Bond Municipal Bond Index. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that employer contributions to the Plan will continue to follow the pay-as-you-go contribution policy. Based on the assumptions of a pay-as-you-go plan, the discount rate used at the June 30, 2018 measurement date is equal to the applicable rate of the 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the School's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the School's proportionate share of the net OPEB liability, as well as what the School's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.87%) or 1-percentage point higher (4.87%) than the current discount rate:

	<u>1% Decrease 2.87%</u>	<u>Discount Rate 3.87%</u>	<u>1% Increase 4.87%</u>
Net OPEB liability (asset)	\$ <u>8,636,564</u>	\$ <u>7,258,039</u>	\$ <u>6,173,640</u>

NOTE G - PENSION PLAN

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Delaware Public Employees' Retirement System ("DPERS") and additions to/deductions from DPERS's fiduciary net position have been determined on the same basis as they are reported by DPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - DPERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to virtually all full-time or regular part-time employees of the State of Delaware, including employees of other affiliated entities. There are two tiers within the plan: 1) Employees hired prior to January 1, 2012 (Pre-2012), and 2) Employees hired on or after January 1, 2012 (Post-2011). DPERS issues a publicly available financial report that can be obtained from the pension office at McArdle Building, Suite 1; 860 Silver Lake Blvd., Dover, DE 19904.

Benefits Provided - DPERS provides retirement, disability and death benefits. Pre-2012 members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least five years of credited service; (b) age 60 with 15 years of credited service; or (c) 30 or more years of service regardless of age. Post-2011 members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least ten years of credited service; (b) age 60 with 20 years of credited service; or (c) 30 or more years of service regardless of age.

Pre-2012 participants are eligible for disability benefits after five years of credited service. In lieu of disability pension benefits, over 90% of the members in this Plan opted into a Disability Insurance Program offered by the State effective January 1, 2006. Post-2011 participants are not offered disability pension benefits and are in the Disability Insurance Program.

Death benefits are payable upon the death of an active member who has reached age 62 with at least five years of credited service. Such benefits are paid at 75% of the benefit the employee would have received at age 62. If an employee is currently receiving a pension, the eligible survivor receives 50% of the pension benefit (or 75% with 3% reduction of benefit). Burial benefits of \$7,000 per member are also provided.

Contributions

Members Contributions

- Pre-2012 members contribute at 3% of earnings in excess of \$6,000.
- Post-2011 members contribute at 5% of earnings in excess of \$6,000.

Employer Contributions

Employer contributions are determined by the Board of Pension Trustees. Employer contributions were 10.42% of earnings for the Fiscal Year 2018. Contributions to the plan from the School were \$265,550 for the year ended June 30, 2019.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the School reported a liability of \$1,171,376 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2017 to June 30, 2018. The School's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2018, the School's proportion was 0.0907%, which was an increase of 0.0313%.

For the year ended June 30, 2019, the School recognized pension expense of \$391,049. At June 30, 2019, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 48,360	\$ 10,359

NOTE G - PENSION PLAN (Continued)

\$265,550 reported as deferred outflows of resources related to pensions resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending <u>June 30,</u>		
2020	\$	137,227
2021		139,925
2022		106,305
2023		122,697
2024		-
Thereafter		<u>-</u>
	\$	<u>506,153</u>

Actuarial Assumptions - The total pension liability as of June 30, 2019, was determined by rolling forward the System’s total pension liability as of the June 30, 2018 actuarial valuation to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

- **Investment Return** - 7.0%, includes inflation at 2.5%
- **Salary Increases** - 2.5% + Merit, includes inflation at 2.5%
- Mortality rates were based on the RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis.

The total pension liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, and employee demographic behavior in future years. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

NOTE G - PENSION PLAN (Continued)

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's current and expected asset allocation is summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	30.7%	5.7%
International equity	13.9%	5.7%
Fixed income	23.3%	2.0%
Alternative investments	24.4%	7.8%
Cash and equivalents	7.7%	0.0%
	100.0%	

Discount Rate - The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at rates determined by the Board of Pension Trustees, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE I - RISK MANAGEMENT

The School has purchased commercial insurance policies for various risks of loss related to torts; theft, damage, or destruction of assets; errors or omissions; injuries to employees; or acts of God. Payments of premiums for these policies are recorded as expenses of the School. Insurance settlements have not exceeded insurance coverage in the year presented.

NOTE J - COMMITMENTS AND CONTINGENCIES

In the normal course of business, there are various outstanding commitments and contingent liabilities in addition to the normal encumbrances for the purchase of goods and services. The School does not anticipate losses from these transactions.

Grants

The School receives financial assistance from federal agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the State Office of Auditor of Accounts. Any disallowed claims resulting from such audits could become a liability of the General Fund. The School’s administration believes such disallowance, if any, would be immaterial.

NOTE K - ECONOMIC DEPENDENCY

School revenues that constitute in excess of 10% of total revenues are comprised of the following:

State support.....	51%
Charges to school districts	31%
Federal support.....	14%

NOTE L - RELATED-PARTY TRANSACTIONS

Academic and Business Services

On June 8, 2015, the School entered into an Academic and Business Services Agreement with Freire Schools Collaborative. The agreement ends on the expiration of the current Freire Charter. Under the terms of the agreement, Freire Schools Collaborative provides academic and business services for a fee equal to 8% of federal, state, and local revenues that the School receives, directly or indirectly, for students enrolled in the School. Fees paid under this agreement during the year ended June 30, 2019, totaled \$511,436.

 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
 YEAR ENDED JUNE 30, 2019

NOTE A - BASIS OF ACCOUNTING

The School's budget is prepared on the cash basis of accounting. The amount reported as "net change in fund balance" on the budgetary basis derives from the cash basis of accounting. Revenues are reported when received and expenditures are reported when paid. This amount differs from the "net change in fund balance" reported on the statement of revenues, expenditures and changes in fund balance, Governmental Fund on page 15.

That statement is prepared on the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

The following reconciles the net change in fund balance per the budgetary basis to the net change in fund balance per the modified accrual basis.

CHANGE IN FUND BALANCE, BUDGETARY BASIS	\$ 126,184
Net increase in accrued salaries and related costs	<u>(88,982)</u>
 CHANGE IN FUND BALANCE, MODIFIED ACCRUAL BASIS	 \$ <u>37,202</u>

NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The School overspent budgetary appropriations in the following functions:

Capital outlays	\$ 60,043
Debt service	<u>109,833</u>
	<u>\$ 169,876</u>

These excess expenditures were funded by various functions that were under budget in the General Fund.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Freire Charter School Wilmington, Inc. as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Freire Charter School Wilmington, Inc.'s basic financial statements, and have issued our report thereon dated September 16, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Freire Charter School Wilmington, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Freire Charter School Wilmington, Inc.'s internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies, and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control that we consider to be a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2018-001 to be a significant deficiency.

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Freire Charter School Wilmington, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Freire Charter School Wilmington, Inc.'s Response to Findings

Freire Charter School Wilmington's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Freire Charter School Wilmington, Inc.'s response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***Independent Auditors' Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance in Accordance with the Uniform Guidance***

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

Report on Compliance for Each Major Federal Program

We have audited Freire Charter School Wilmington, Inc.'s (a nonprofit organization) compliance with the types of compliance requirements described in the Office of Management and Budget ("OMB") *Compliance Supplement* that could have a direct and material effect on each of the Freire Charter School Wilmington, Inc.'s major federal programs for the year ended June 30, 2019. Freire Charter School Wilmington, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Freire Charter School Wilmington, Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Freire Charter School Wilmington, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Freire Charter School Wilmington, Inc.'s compliance.

To the Board of Directors
Freire Charter School Wilmington, Inc.
Wilmington, Delaware

Opinion on Each Major Federal Program

In our opinion, Freire Charter School Wilmington, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Freire Charter School Wilmington, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Freire Charter School Wilmington, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Freire Charter School Wilmington, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
