

# DELAWARE ARP ESSER HEALTH & SAFETY PLAN

## PURPOSE 1

This section is to document the LEA's required Safe Return to In-Person Instruction and Continuity of Services Plan reviewed on 2/15/24.

**1. Please describe the extent to which the LEA has adopted policies on each of the following health and safety strategies:**

**a. Universal and correct wearing of masks.**

Freire Charter School Wilmington's policy on face masks currently indicates masks are optional for all individuals while in the building. We will continually monitor CDC as well as state and local guidelines for updates to modify this requirement.

**b. Physical distancing (e.g., using cohorts/ podding)**

Per the current CDC guidance for schools, we have deprioritized physical distancing.

**c. Handwashing and respiratory etiquette.**

We utilize motion-sensor faucets and soap dispensers. Additionally, hand sanitizer is readily available throughout the building especially in high-touch areas. We will continually monitor CDC as well as state and local guidelines for updates to modify these handwashing and respiratory etiquette requirements.

**d. Cleaning and maintaining healthy facilities, including improving ventilation.**

Freire Charter School Wilmington has developed cleaning and sanitization schedules and procedures according to current CDC and OSHA guidelines.

MERV-13 filters and air ionizers are installed in the central HVAC units to support greater air filtration. To further support air filtration, the school has secured portable air purifiers and staff are encouraged to open windows, weather permitting. We will continually monitor CDC as well as state and local guidelines for updates to modify our cleaning, ventilation, and sanitization procedures and protocols.

**e. Contact tracing in combination with isolation and quarantine in collaboration with the state, local, territorial, or Tribal health departments.**

Per the current CDC guidelines for schools, we have ceased contract tracing and no longer require quarantine due to exposure. Students or staff who are exposed in the home or another setting must wear a proper-fitting mask for 10 days and should test on day 5. Students or staff who test positive for COVID must stay home for 5 days with the date of the positive test being day 0. The student or

staff member may return on day 6 provided they are without a fever while not using fever-reducing medication. Use of a proper-fitting mask will continue until day 10.

**f. Diagnostic and screening testing.**

Freire Charter School Wilmington is not planning on offering regular COVID testing for the 2023-24 school year.

**g. Efforts to provide vaccinations to educators, other staff, and students if eligible.**

Freire Wilmington has in the past held several in-school vaccination clinics, open to the local community, in partnership with Care Force MD. Freire Wilmington will continue to promote that students and families remain current with their COVID vaccines and boosters as the best deterrent from serious infection/illness.

**h. Appropriate accommodations for children with disabilities with respect to health and safety policies.**

Additional protective equipment will be provided, as appropriate, for settings that require close human contact, such as staff providing supports for students with disabilities and counseling services. Emotional Supports services will also continue to be available virtually to students in 2023-24 when needed. We will continually monitor CDC as well as state and local guidelines for updates to modify our accommodations to students with disabilities.

**2. How will the LEA ensure continuity of services including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?**

Continuity of services for all students is a top priority for Freire Wilmington. We will be able to maintain continuity of services throughout the 2023-24 school year with ESSER funding. ESSER will enable us to fund the salary and benefits of new and existing positions that support student growth both academically and socially. Technology investments will allow us to pivot to provide instruction and emotional supports virtually as needed.

## **PURPOSE 2**

**This section is to document the LEA's required ARP ESSER Plan due by August 23, 2021 and reviewed on December 16, 2021, which at a minimum must describe:**

**1. The extent to which and how ARP ESSER Funds will be used by the LEA to implement prevention and mitigation strategies that are, to the greatest extent practicable, in line with the most recent guidance.**

Throughout the execution of our in-person learning program for the 2023-24 school year, Freire Wilmington will ensure our prevention and mitigation policies are aligned with current guidance from the CDC as well as state and local authorities. To achieve this, the operations team at the Freire Schools Collaborative Network Office will review and analyze any new health and safety guidance regarding the operation of schools. As new information becomes available, the Network Office will support school administration in revising policies and procedures as well as communicating updates with families and staff.

**2. How the LEA will use the mandatory 20% set-aside to address the academic impact of lost instruction time through the implementation of evidence-based interventions.**

Freire Wilmington will use the ESSER-III set-aside to invest in our academic advising program to ensure that students are supported as we focus on learning acceleration, to support math instruction and intervention,

**3. How the LEA will use the remaining ARP ESSER funds consistent with the statutory requirements.**

ESSER III funds to ensure continuity of services by supporting the salaries and benefits for valuable personnel positions, including an admissions coordinator, one ELA teacher and one Social Studies teacher to provide core instruction, a Student Supports Coordinator and a Psychologist, both of whom will work to provide counseling and support to students who are in crisis or are facing other challenges that require intervention and support; an IT Coordinator, who is responsible for maintaining the day-to-day technology needs of the school, which have increased since COVID as we are now a 1:1 school.

ESSER II funds will be used to purchase Chromebook computers and relevant supplies (e.g. chargers, replacement screens, computer cases) for every Freire student to ensure they have access to the technology they need to participate in our 1:1 learning model.

**4. How the LEA will ensure that the ARP ESSER funded interventions, including but not limited to the 20% set-aside, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic including students from low-income families, students of color, English Learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.**

Freire Wilmington recognizes that the impact of COVID-19 has affected our students beyond learning loss. Prior to COVID 153 students visited our school counselors for therapy sessions. During remote learning throughout COVID, that went down to 23 students. We believe that this is a reflection of social-emotional disengagement that was prevalent in schools throughout the country. Much like our programs designed to address learning loss, we have been looking at ways to accelerate social-emotional wellbeing and re-engaging students in a way that is supportive and authentic. One step we are taking is by contracting with a psychologist to lead these efforts and hiring a Student Support Coordinator for a more holistic approach to student wellbeing. The Student Support Coordinator will work closely with our Emotional Supports Department and our Culture and Discipline Team to provide counseling to students in crisis or facing other challenges that require intervention and support. This position will also focus on developing school culture and family engagement initiatives in conjunction with supporting the Director of Advising in resolving student attendance issues. As a result of funding these positions, we anticipate an improvement in student attendance during COVID-19 and/or an increase in engagement with the remote learning program if we should need to revert to it.

Throughout the grant period, we will use data to ensure that our programming is responding to students' needs. Metrics that we will review regularly include benchmark test results, attendance, suspensions, # of students participating in therapy, # of students participating in peer mediation, student engagement survey data, and other academic and SEL measures as needed.

**5. Describe the promising practices the LEA has implemented to accelerate learning.**

With the understanding that one of the best ways to accelerate learning is exposing students to high quality, grade level instruction and curriculum, FCSW has adopted high-quality, standards aligned ELA curriculum (EngageNY), is continuing with the implementation of Illustrative Mathematics curriculum, and is supporting implementation of both with Professional Learning Communities.

# Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for Freire Charter School Wilmington reviewed and approved the updated Health and Safety Plan on February 15th, 2024.

The plan was approved by a vote of:

Yes

No

Affirmed on: February 15th, 2024
